

## STILL PROCURING YOUR FAÇADE LIKE THIS... AND EXPECTING WEATHERING & SEISMIC PERFORMANCE?

A building façade is a complex assemblage of thousands of components and materials all needing to work as one integrated system. Why would you specify and procure your exterior cladding solution in pieces and parts?

We design, engineer, test, manufacture and install integrated system solutions, be it curtainwall, unitised panel, windows, shop front, skylights, solar shading and glass - right here in New Zealand.

Together we can build better solutions, with faster on site programming, with less risk - Simplify your life with one provider.
