Façade Engineer  
Chief Executive Officer

## TO WHOM IT MAY CONCERN

Thermosash Commercial Ltd was the successful curtain wall contract tenderer for the Christchurch International Airport project.

Although they were not the least expensive of the tenderers they won the contract on their track record and reputation.

The curtain wall portion of the Airport contract was a major component of the design with high glazed walls wrapping almost right around the 28,000m<sup>2</sup> new building. Due to the critical and complex nature of this work the conscious decision was made to employ the best firm available.

We can confirm that we did not regret choosing Thermosash, the work was carried out professionally, on time and to a high standard. Shop drawings were clear, comprehensive and relevant and their experience, knowledge and willingness to assist was invaluable throughout the construction process.

We would not hesitate to recommend Thermosash Commercial Ltd for any large scale curtain wall work.

Yours sincerely

D N SHEPPARD
