

NZI Centre, 1 Fanshawe Street - Auckland

WE DON'T LET COMPLEXITY GET IN THE WAY OF GREAT DESIGN...

By providing seamlessly integrated customised façades – Thermosash can minimise trade junctions, improve buildability, increase site productivity, mitigate risk in construction programming whilst providing certainty in weather-tightness.

"Due to the complex nature of the curtain wall on the NZI Building, we specified Thermosash to deliver the desired aesthetic we were looking for and importantly to meet our performance requirements, all while supporting the critical construction schedule parameters" says Lincoln Fraser, NZI Centre Development Director - Newcrest
